Education

2015-2019

Bachelor of Science in Information Technology

Southern Leyte State University (Main Campus)

JEROME JOSEPH VILLARUEL

Software Engineer

Dynamic and innovative professional with 4 years of invaluable hands-on experience in handling several simultaneous creative web, desktop and mobile applications, including graphic designs and database conceptualization. Strong interpersonal skills as well as my eagerness to contribute to a quality company.

Experience

August 2026 - Present

TAILWIND SYSTEMS

Senior Software Engineer (Consultant)

React, React Native, NextJS, Astro, SolidJS, Tauri, Swift, Kotlin, Vite, NodeJS, and Typescript

Led the development and delivery of scalable software solutions across web, mobile, Android, iOS, and desktop platforms. Worked closely with product, design, and engineering teams to translate business requirements into reliable, maintainable applications. Focused on architecture, performance optimization, feature development, API integrations, and production deployments while contributing to technical decisions, code reviews, testing, and continuous improvements across the product ecosystem.

March 2026 - Present

REAKT SOLUTIONS

Software Engineer

React, React Native, Vite, NodeJS, and Typescript

Built and enhanced mobile applications for Android and iOS using React Native, with a focus on responsive user experiences and reliable application behavior. Implemented mobile features, integrated backend APIs and third-party services, resolved production issues, and improved existing functionality based on client requirements. Participated in testing, debugging, code reviews, and app release processes to support stable and consistent mobile deployments.

February 2024 - April 2026

booky

Software Engineer

React, React Native, NextJS, Vite, NodeJS, Typescript, Golang, PostgreSQL and AWS Lambda

This role involves planning and implementing features for mobile and web applications and server infrastructure, ensuring optimal user experience and adherence to development standards, while also tracking metrics, proposing improvements, and supporting internal tools as needed. The responsibilities span feature ideation, coding, testing, adherence to standards, metric tracking, improvement proposals, and internal tool support.

June 2022 - February 2024

HALCYON AGILE

Software Developer

React, React Native, NextJS, Typescript, NodeJS, AdonisJS, MySQL, PlanetScale, Vercel and AWS Amplify

Responsible for writing clean, efficient, and maintainable code for web and mobile applications, testing and debugging web and mobile applications to endure they meet quality standards and collaborating with other developers to share knowledge and best practices.

February 2020 - June 2022

SPMI FIBER. OUR STRENGTH

IT Coordinator

Local Area Network (LAN), Operating Systems, Computer Hardware, Networking, Programming, and Database Admin

Manage software debugging, databases, LAN, creating company system software, install and configure software and hardware, including printers, and other computer parts.

August 2019 - December 2019

PUREGOLD

Graphic Artist

Corel Draw and Adobe Photoshop

Responsible for creating aesthetically promo posters and tarpaulins that accompany written test. Maintain store signages clean and presentable.
